VISION STATEMENT
Stone-Campbell pastors and lay employees will enjoy a strong, smart and secure retirement.

CORE VALUES
INTEGRITY: the quality of being honest, making membership-oriented decisions
SECURITY: the state of stability, providing freedom from worry or fear
COMPASSION: the ability to help others in times of need or distress

Matthew 25:20-21: “The one given five thousand dollars showed him how he had doubled his investment. His master commended him: ‘Good work! You did your job well. From now on be my partner.’”

FINANCIAL REPORT 7

EXCELLENCE IN MINISTRY 11

MINISTERIAL RELIEF & ASSISTANCE 13

HIGHLIGHTS, BOARD & STAFF 16

PENSION FUND GIFTS HONOR ROLL 21
At Pension Fund, our mission is For the Support of Ministry, ensuring every Stone-Campbell pastor and lay employee will enjoy a Strong, Smart and Secure retirement. These words For the Support of Ministry are not random – they are our calling. A calling first issued by Alexander Campbell himself, who wrote in 1831 in The Harbinger that a regular offering should be received “for the care of the aged is enjoined as the duty and privilege of all disciples.” Campbell called us all to stand for the support of ministry and those who serve.

In the church, we often do not move quickly. It took until 1895, upon the death of Rev. Ira Chase, before the church acted on this calling. In 2020, we will celebrate 125 years since our first gift and the founding of the Board of Ministerial Relief and Assistance.

Over the past 125 years, our programs and name have changed, but our mission – our calling – has not. In 1929, the International Convention approved the formation of Pension Fund based on a plan that was written and presented in 1919. The plan was approved on the condition that $8 million be raised to capitalize the program. Following the stock market crash and the start of the Great Depression, only $3 million had been raised, but our calling pushed those early leaders forward.

Today, we continue to ask ourselves what is the growing edge of our ministry – our calling – and how do we continue to stand For the Support of Ministry? We have moved from hand-signed certificates created on a typewriter just ten years ago to cutting-edge technology that allows members to view their accounts online and securely initiate withdrawals and deposits.
We have moved from being a relief organization, to a Pension Plan, to a comprehensive retirement provider offering four retirement products and the Benefit Accumulation Account. We are expanding our support and relief programs, seeing them as a *bridge to financial wellness*, and opportunities for us to support retired and active clergy while partnering with congregations.

Our evolution continues. In 2018 we built and beta tested an employer portal that will allow employers to add, delete and modify employee information. We made our systems more secure. We have grown our assets under management and we are serving a growing number of new employers and members. We also awarded the second largest total dollar payout for combined Good Experience Credits ($50.5 million) and Special Apportionments ($96.8 million), which provided our retirees with a 5.5% raise.

“I never received a raise this big while I was working!” –Rev. Michael Mooty.

Every day our staff arrives ready to serve, passionate for our work, and with the knowledge that they too are living out a calling to stand *For the Support of Ministry*. On the pages that follow you will read some of the ways in which we lived our calling in 2018.

With gratitude,

Rev. Dr. Todd A. Adams
*President and CEO*
I discovered that my discipline, coupled with Pension Fund’s expertise, gave me options to secure my future without worry.

-REV. DR. ROBIN HEDGEMAN
Financial Overview

Included in the annual report are the combined financial statements of Pension Fund of the Christian Church (Disciples of Christ), Inc; Health Care Benefit Trust; and Pension Fund Canada Trust. These statements were audited by Grant Thornton, LLP and include an unmodified opinion for the years ending Dec. 31, 2018 and 2017. Key 2018 financial and operating metrics are presented in the following pages.

Investments

Pension Fund’s total investments decreased 7.34% to $3.03 billion as of Dec. 31, 2018 as a result of the falling investment market in the fourth quarter and net benefit payments made during 2018. Pension Fund manages assets with the assistance of third-party investment managers in line with a Board of Directors approved Statement of Investment Policy and Guidelines. The guidelines provide for asset allocation, manager performance criteria, and socially responsible investment guidelines. Pension Fund applies the industry standard Environmental, Social, and Governance (ESG) criteria when voting the proxies for companies owned by the plans.

Investment returns for the tax-advantaged products including: Pension Plan, Tax-Deferred Retirement Accounts (TDRA), and Individual Retirement Accounts (IRAs) for 2018 was negative 3.26%. The after-tax Benefit Accumulation Account (BAA) savings product investment
return was negative 6.65%. Although investment returns were negative, member accounts were not impacted. TDRA and IRA accounts earned 3.5% interest for 2018 while the BAA accounts earned 2.5% interest. Pension Fund protects our members against downturns in the market through guaranteed base interest rates on all products.

**Pension Plan**

The Pension Plan is a defined benefit plan providing lifetime benefits to members and eligible survivors. Dues paid into the Plan and investment earnings fund benefits. At year-end 2018, the Pension Plan’s funding status was at 113% of plan liabilities. During 2018 the Board of Directors approved a 5.5% Special Apportionment Credit (SAC) based on investment returns and funding levels for year-end 2017.

**Retirement Savings Plans**

The TDRA, IRA, and BAA accounts provide a base rate of return to members. The 2018 base interest rate for the TDRA and IRA products was 3.5%, while the BAA product was 2.5%. In Feb. 2018, the Board of Directors approved Good Experience Credits (GECs) based on year-end 2017 investment returns and funding levels. The GECs were posted to member accounts on March 31, 2018 based on the average daily account balance for 2017. The SAC and GEC credits awarded in 2018 equaled $147 million dollars, the second largest total dollar payout in Pension Fund history.
A primary goal of the Board of Directors of Pension Fund is to maintain an adequate funding level equal to the actuarial liability and, when appropriate, to share excess returns with its members. This illustration represents historical data and may not indicate future performance.

Asset Allocation for Tax-Advantaged Products

- U.S. Equities (35%)
- Int’l Equities (15%)
- Fixed Income (35%)
- Alternatives (15%)

Ministerial Relief and Supplemental Gift Program

The Ministerial Relief and Assistance (MRA) Fund, supported by individual donations and Pension Fund’s Endowment Fund, provides for a variety of financial support programs for ministers and surviving spouses. In 2018, over $1.5 million was distributed to fund Supplemental Pensions, Relief Pensions, Emergency Aid grants, and 13th Check recipients. The Excellence in Ministry program awarded $235,000 to participants for debt relief.
“I used to think I was the only minister who felt stress about money. Now I know I’m not alone and I have people I can talk to.”

-EXCELLENCE IN MINISTRY PARTICIPANT
“Excellence in Ministry” is Pension Fund’s clergy financial wellness program, sponsored by Lilly Endowment. For the past three years, the program has supported our church’s emerging pastoral leaders with education in personal and congregational finance, as well as grants to help reduce financial stress. In 2018, Pension Fund was awarded a second $1 million grant to continue the program and add additional elements.

To date, 60 Disciples of Christ pastors have benefited from the program, engaging their spouses and lay leaders in financial education. The program has served more than 200 people and 100 congregations.

To sustain the program, Pension Fund partners with

- Bethany Fellows, a 20-year-old Disciples-based peer and mentoring network, to provide support and accountability for Excellence in Ministry pastors and spouses.

- Lexington Theological Seminary which hosts online learning experiences for pastors and lay leaders on topics related to congregational finance and leadership.

- Financial advisor and USA Today money columnist “Pete the Planner” who provides education and support through the on-demand service, “Your Money Line.”

Pension Fund donors are helping strengthen the Excellence in Ministry program with their gifts. As of Dec. 31, 2018, the program has received more than $300,000 in donor gifts, helping to sustain the program for 2019 and beyond. If you are interested in making a gift to sustain Excellence in Ministry, please visit PensionFund.org/Give.
Grateful for this ministry and all who have been a part of its great legacy of strength, security, prudence, and generosity!

- REV. KATHLEEN THOMAS
MINISTERIAL RELIEF AND ASSISTANCE

Pension Fund began as the Board of Ministerial Relief in 1895. Funded solely through gifts and offerings, Ministerial Relief was created to assist ministers and their families in times of unexpected and great need, usually due to the death or disability of the minister. This work continues today as the Ministerial Relief and Assistance program and is still a vital part of Pension Fund’s ministry. In 2018, Pension Fund distributed over $1.5 million to ministers and their families through various Ministerial Relief and Assistance programs.

Each of these programs is made available through the generous support of countless saints of the church who have expressed their great concern for the well-being of those who have served the church faithfully and who, in retirement or through a significant life event, have great financial need. Thank you for sharing your personal resources to assist others through Ministerial Relief and Assistance.

Supplemental Gifts

The Ministerial Relief and Assistance program provides funds to retired ministers, missionaries and their surviving spouses as a supplement to extremely low retirement incomes. Many have low pensions because they served churches that did not participate in the Pension Plan or that paid a low salary. The amount of Supplemental Gift is based on years of service and financial need. Pension Fund awarded a total of $458,781 in Supplemental Gift Pensions to 97 retirees or surviving spouses in 2018.

Ministerial Relief Grants

Monthly Ministerial Relief grants are provided to persons who have no contractual pension. In 2018, Pension Fund provided $546,763 to 57 qualifying retired ministers or surviving spouses.
Emergency Aid Grants

Some Ministerial Relief and Assistance funds were also granted to help in emergency situations such as large, unexpected medical expenses and transition expenses. In 2018, Pension Fund provided 35 Emergency Aid grants totaling $157,121.

Health Care Premium Assistance

Funds from individual donors are used to pay health care premiums for some retirees and surviving spouses who have great financial need. In 2018, $192,828 in health care premium assistance was provided.

Total 2018 Gift Distribution: $1,546,724

OTHER VITAL GIFTS

Honor is also due to those who have made substantial gifts for the initial funding of the Pension Plan. Their early gifts, while not a part of the Endowment Fund, are greatly appreciated for their inclusion in the basic reserves of the Pension Plan. Included are: William H. Dulaney, Frank Hughes, J. R. McWane & R. H. Stockton.

Income for current Ministerial Relief and Assistance is received on a regular basis from outside held trusts and foundations established by:

- Leslie O. & Ethelda Best
- George J. & Elizabeth Brown
- Will S. & Clara Hicks
- William & Mary Hudspeth
- John Charles Leber
- Harley C. & Mary Hoover Price
- Wanda A. Remick
- Mary Isabel Sandin
- John & Lucy Schafer
- Otto & Martha Werner
- Greenville Avenue Christian Church, Graham, TX
- Freeport Boulevard Christian Church, Sacramento, CA

Oreon E. Scott (via Christian Church Foundation)

The newly formed Chase Society is Pension Fund’s way of recognizing our valued donors who have provided, or have committed to providing, Pension Fund with an estate gift. To learn more about the Chase Society or legacy giving, please contact Rev. Ruth Wallace at RuthW@pensionfund.org or Rev. Julie Richardson at JRichardson@pensionfund.org.

Members of the Financial Affairs Committee
Pension Fund of the Christian Church (Disciples of Christ), Inc.

We have audited the accompanying combined financial statements of Pension Fund of the Christian Church (Disciples of Christ), Inc. and affiliated entities, which comprise the combined statements of net assets available for benefits as of December 31, 2018 and 2017, and the related combined statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management’s responsibility for the financial statements
Management is responsible for the preparation and fair presentation of these combined financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of combined financial statements that are free from material misstatement, whether due to fraud or error.

Auditor’s responsibility
Our responsibility is to express an opinion on these combined financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the combined financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the combined financial statements. The procedures selected depend on the auditor’s judgment, including the assessment of the risks of material misstatement of the combined financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity’s preparation and fair presentation of the combined financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity’s internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the combined financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.
Opinion
In our opinion, the combined financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Pension Fund of the Christian Church (Disciples of Christ), Inc. and affiliated entities as of December 31, 2018 and 2017, and the changes in their net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

The accompanying notes are an integral part of these statements.
NOTE A - NATURE OF OPERATIONS

Pension Fund of the Christian Church (Disciples of Christ), Inc. (Pension Fund) was organized to provide benefits to its members who are employed in serving the church and related organizations. It is incorporated as a not-for-profit organization under the laws of the state of Indiana. Benefits provided by Pension Fund include retirement, disability and death benefits, supplemental pensions and support, healthcare, and participation in additional benefits programs. Such benefits are provided through member contributions, gifts and special apportionments from Pension Fund operations.

Pension Fund is a Church Plan as defined in Section 414(e) of the Internal Revenue Code (the Code) and in Title 1 of the Employee Retirement Income Security Act of 1974 (ERISA), as amended. Pension Fund has not elected to be subject to ERISA.

By virtue of its inclusion in the group exemption ruling of the General Assembly of the Christian Church (Disciples of Christ), Pension Fund is exempt from federal income taxes under Section 501(c)(3) of the Code.

In the event of termination of Pension Fund, the Board of Directors of Pension Fund (Board of Directors) would determine the priority order of participating members’ claims to the assets of Pension Fund.

Pension Fund groups its plans and operations for reporting and managing purposes into funds that are briefly described as follows:

a. Pension Plan Fund – The Pension Plan Fund is comprised of the US Pension Plan Fund and Puerto Rico Plan Fund effective January 1, 2018. The fund represents reserves required to meet the Defined Benefit Pension Plan (the Plan) member retirement, death and disability benefit obligations. Contributions are made to the Pension Plan Fund by its members and participating churches or organizations based upon a specified percentage of members’ compensation and are credited to the members’ individual accounts. Any dues payment that is less than 14% of 100% of the member’s compensation base will result in reduced benefits. The dues are converted into pension credits by taking the total compensation base upon which dues are paid to the Plan during a member’s career, and multiplying it by 0.014966; provided, however that dues contributed prior to January 1, 2018 are multiplied by 0.00426 for the portion of compensation base attributable to the payment of 6% dues. The Plan provides for retirement benefits generally at age 65 based upon such accrued pension credits and includes provisions for early retirement, disability and death benefits. All members are immediately vested unless agreement with the organization provides alternate vesting. The Plan provides for special apportionments awarded to all active and retired members of the Plan, if the fund is over the required funding level and as approved by the Board of Directors.

b. Additional Benefits Fund - This is a combination of several programs, including the Tax Deferred Retirement, Benefit Accumulation, Roth IRA, Traditional IRA and Annuity programs all offered with the intent of providing members the opportunity to enhance their retirement. Funds in such accounts earn stipulated rates of interest, and may be subject to withdrawal and deposit rules and regulations adopted by the Board of Directors. From January 1, 2011 to July 1, 2015, the Benefit Accumulation program was not available to new members. Effective July 1, 2015, the Benefit Accumulation program became available to new members.

c. Annuity Fund - Funds received from donors and members to purchase annuities and make periodic annuity payments as specified.

d. Endowment Fund - Gift funds, including those received through estates, bequests or memorials, which are restricted and are to be retained for designated purposes. The Endowment Fund is comprised of gifts and donations plus accumulated investment returns. Earnings from this fund primarily help support ministerial relief programs according to the spending policy that is designed for long-term sustainability of the endowment.
e. General Fund - This unencumbered fund accumulates the administrative fees charged to each program fund. These funds are expendable for current operating and capital purposes. These funds can be used to support special apportionments and good experience credits at the approval of the Board of Directors.

f. Ministerial Relief and Assistance Fund - Gifts and gift allocations of the church for the express purpose of meeting members' needs, such as supplemental gift pensions, ministerial relief, emergency aid, health care assistance and other services. In prior years, the Board of Directors authorized a grant to the Healthcare Benefit Trust (HCBT) of $2,000,000 to assist in the transition of the Healthcare plan from supporting both active and retiree members to a retiree member only plan. The transfer of funds is to be repaid only if the HCBT program has sufficient resources to repay the grant. Net of this grant, the Ministerial Relief and Assistance Fund has a surplus equal to more than one year of typical disbursements.

g. Pension Fund Canada Trust - The Pension Fund Canada Trust executes the operations of the Pension Plan Fund as it pertains to members and beneficiaries in the fund who are employed in Canada. The Pension Fund Canada Trust maintains separate reserves to meet the benefit obligations of the Pension Plan Fund in Canada. Canadian members and beneficiaries are entitled to substantially the same benefits as U.S. members and beneficiaries based upon the same contribution percentage.

h. Health Care Benefit Trust - The HCBT administers the operations of the former Health Care Fund and Health Care Claims Reserve Fund. The HCBT, effective December 31, 2016, discontinued support for the active Plan members. The Trust will continue to serve the retiree Plan participants with no change in benefits. This change was necessary given the fiscal challenges related to declining enrollment and increasing expenses. The year-end financial position of the HCBT includes accrued expenses related to claims incurred but not received and other related run out types of expenses related to the active Plan membership.

Pension Fund serves as the Trustee of the HCBT and the Pension Fund Canada Trust (collectively, the Trusts). As a result, the accompanying combined financial statements include the accounts of the Pension Fund and the Trusts. All significant transactions between Pension Fund and the Trusts have been eliminated.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying combined financial statements are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Concentration of Credit Risk

Pension Fund has certain financial instruments that subject it to potential credit risk. Those financial instruments consist primarily of cash. Pension Fund maintains its cash balance with financial institutions. At times, these balances may exceed the Federal Deposit Insurance Corporation insured limits. Pension Fund has not experienced any loss on these accounts and believes there is no significant exposure of credit risk on cash.

Investment Valuation, Income Recognition and Presentation

Investments are reported at fair value. The fair value of a financial instrument is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. If available, quoted market prices are used to value investments. See note C for a description of valuation techniques.
Pensions and sales of investments are recorded on a trade-date basis. Realized gains and losses on investments, recorded as the difference between proceeds received and carrying value, and net unrealized gains and losses on investments for the year are reflected in the combined statements of changes in net assets available for benefits as net investment gain or loss. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investments with original maturities of one year or less are reported as short-term investments.

**Valuation of Investments (Securities with No Quoted Market Prices)**

Certain investments held by Pension Fund do not have quoted market prices available. Such investments are valued at estimated fair value. Fair values for such investments are based on market value information provided by the investment brokers or managers of the investment funds. See note C for additional information.

**Derivative Financial Instruments**

Pension Fund’s assets and liabilities include certain derivative financial instruments, including treasury and other interest rate futures contracts, options, swap contracts and forward currency exchange contracts. These financial instruments with off-balance-sheet market risk are used to enhance the overall yield of investments and are entered into as alternatives to investments in actual U.S. treasury securities or other investments. These financial instruments are also used on a daily basis to maintain Pension Fund’s long-term asset class target allocations of the investment portfolio. Credit loss exposure exists in the event of nonperformance by the other parties, principally large brokerage firms, to such instruments. The gross and net credit risk associated with the related counterparties on open futures, swap contracts and option positions is insignificant. The market risk for these open futures and option positions is directly linked with exchange rates or market interest rates as the underlying securities bear a fixed rate of interest.

**Health Care Claims Payable**

Health care claims payable are recorded as expense when the related claim is incurred by the participant.

**Use of Estimates**

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits, and changes therein, at the date of the financial statements. Actual results could differ from those estimates.

**Payment of Benefits**

Benefit payments to participants are recorded upon distribution.

**Risks and Uncertainties**

Pension Fund utilizes various investment instruments. Investment securities, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the combined financial statements.

The actuarial present value of the accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the combined financial statements.
NOTE C - INVESTMENTS

The following schedule summarizes net investment gains (losses) for the years ended December 31:

<table>
<thead>
<tr>
<th></th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td>Interest and dividend income</td>
<td>$62,219,883</td>
<td>$50,070,655</td>
</tr>
<tr>
<td>Securities lending fees</td>
<td>479,078</td>
<td>572,480</td>
</tr>
<tr>
<td>Net realized and unrealized gains (losses) on investments</td>
<td>(151,299,483)</td>
<td>373,113,695</td>

</table>

The notional values of these swaps were $(116,269,702) and $(30,009,565) as of December 31, 2018 and 2017, respectively.

Pension Fund’s investments include alternative investments that do not have quoted market prices available. In the absence of readily ascertainable market values, the amounts used by Pension Fund were based on each funds’ respective net asset value and were supplied by management of the funds. The market value of these types of investments that do not have quoted market prices available was $870,795,587 and $916,392,610 as of December 31, 2018 and 2017, respectively, which represent approximately 26% and 27% of total assets as of December 31, 2018 and 2017, respectively. However, because of the inherent uncertainty of valuation, those estimated market values may differ significantly from the values that would have been used had a ready market for the securities existed.

**Fair Value Measurements and Disclosures**

In accordance with U.S. GAAP, Pension Fund classifies its investments into Level 1, Level 2 and Level 3, which are described below.
Basis of Fair Value Measurement

**Level 1** - Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities.

**Level 2** – Pricing inputs are other than quoted prices in active markets, which are either directly or indirectly observable as of the report date.

**Level 3** - Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

Assets or liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

Short-term investments, typically cash and cash equivalents or futures contracts, are stated at amortized cost, which approximates fair value.

Common and preferred stocks and U.S. government securities are valued at the closing price reported in the active market in which the individual security is traded.

Certain corporate bonds are valued at the closing price reported in the active market in which the bond is traded. Other corporate bonds are valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flow approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks.

Institutional mutual funds and comingled funds are generally valued at their net asset value.

Fixed income investments include corporate bonds, government securities (U.S. and foreign), interest rate swaps, futures and credit default swaps.

Foreign government securities, interest rate swaps, futures and credit default swaps are stated according to institutional bid evaluation, which represents the price a dealer would pay for a security.

Pension Fund’s investments in private equity funds are recorded at estimated fair value based on their proportionate share of the funds’ fair value as recorded in the funds’ audited financial statements. These funds allocate gains, losses and expenses to the partners based on the ownership percentage as described in the partnership agreements.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors, including the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgement. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values might be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgement exercised by Pension Fund in determining fair value is greatest for securities categorized in Level 3.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, Pension Fund’s own assumptions are set to reflect those that market participants would use in pricing the asset or liability as the measurement date. Pension Fund uses prices and inputs that are current as of the
measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

Pension Fund’s policy is to recognize significant transfers between levels at the end of the reporting period. For the years ended December 31, 2018 and 2017, there were no significant transfers in or out of Levels 1, 2, or 3.

NOTE D - SECURED BORROWINGS

Pension Fund participates in a securities lending program through its master custodian bank, Bank of New York Mellon, in which Pension Fund lends securities to brokers who collateralize the loans with either cash, U.S. securities or foreign securities that must be collateralized equal to 102% of the fair market value of the U.S. security and/or 105% of the non-U.S. loaned security (including accrued interest, if any). Fees earned from participation in the program are recorded as investment income. In accordance with U.S. GAAP, Pension Fund continues to carry the loaned securities as investments. At December 31, 2018 and 2017,
the fair value of securities loaned was $159,843,141 and $213,180,423, respectively. At December 31, 2018 and 2017, the cash collateral held was $36,238,705 and $73,387,056, respectively, and noncash collateral (consisting of securities issued or guaranteed by the United States government or its agencies or instrumentalities) held was $127,313,549 and $145,278,497, respectively. Pension Fund has recorded an asset and offsetting liability to reflect the cash collateral held and the related liability under the securities lending agreement.

Pension Fund also participates in transactions involving sales of securities under agreements to repurchase the securities before maturity at a fixed price. These repurchase agreements are accounted for as collateralized financings and collateral is valued daily. At December 31, 2018 and 2017, open repurchase agreements including accrued interest was $40,082,151 and $53,918,563, respectively.

Pension Fund presents gross obligations for secured borrowings by the type of collateral pledged and remaining time to maturity. The tables below outlines the nature of these obligations at December 31, 2018 and 2017, and the contractual maturities for the collateral.

**NOTE E - ACTUARIAL VALUATION OF PENSION FUND**

The actuarial present value of accumulated plan benefits is determined by an independent actuary to determine the adequacy of reserves of the Pension Plan Fund to cover the present value of accumulated benefits as of such date, which is that amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. Accumulated plan benefits include benefits expected to be paid to (1) retired or terminated participants or their beneficiaries, and (2) active participants and their beneficiaries. Benefits payable as a result of retirement, death, disability or termination of employment are included, to the extent they are deemed attributable to participant service rendered to the valuation date. It
is at least reasonably possible that the actuarial present value of accumulated benefits will change in the
near term and the effect of such change could be significant.

The more significant assumptions underlying the actuarial computations used in the valuation as of and for
the years ended December 31, 2018 and 2017, were as follows:

<table>
<thead>
<tr>
<th>Assumption</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assumed rate of return on investments</td>
<td>5% per annum, compounded annually</td>
</tr>

The foregoing actuarial assumptions are based on the presumption that the Pension Plan Fund will continue. If the Pension Plan Fund were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.
The actuarial benefit information used in the actuarial valuations is as of December 31 of the Pension Plan Fund year. The actuarial present value of accumulated plan benefits and changes in accumulated plan benefits as of December 31, 2018 and 2017, for the US Pension Plan were as follows:

The effect of the Pension Plan Fund amendments on accumulated plan benefits is recognized during the year in which such amendments are adopted. The maximum compensation for disability benefits was increased from $50,000 to $70,000 effective July 15, 2017.

The Puerto Rico Plan was separated from the US Pension Plan on January 1, 2013. On December 31, 2014, the accumulated benefit obligations associated with the participants of the newly formed Puerto Rico Plan were transferred from the US Pension Plan to the Puerto Rico Plan. The actuarial present value of the accumulated plan benefits of the Puerto Rico Plan was $2,873,969 as of December 31, 2017 and is included in the combined financial statements. The Puerto Rico Plan was merged into the US Pension Plan effective January 1, 2018.

**NOTE F - POSTRETIREMENT PLAN**

Pension Fund provides postretirement health care coverage to certain eligible administrative staff retirees through its participation in the church-wide defined-benefit health plan, which it administers. It continues to fund benefit costs on a pay-as-you-go basis and, for each of the years ended December 31, 2018 and 2017, Pension Fund made benefit payments to the church-wide health plan of $31,920 and $29,640, respectively.

As of December 31, 2018 and 2017, the related accumulated postretirement benefit obligation was $366,418 and $393,083, respectively. This liability was calculated using premium costs rather than claims experience, based on the nature of the church-wide plan.
The weighted-average discount rate used in determining the accumulated postretirement benefit obligation was 7%. For measurement purposes, a 10% annual rate of increase in the per capita cost of covered health care benefits was assumed for the year ended December 31, 2018. The rate was assumed to decrease gradually to 5% by the year 2020 and remain level thereafter.

NOTE G - SUBSEQUENT EVENTS

Management has evaluated subsequent events and transactions through April 30, 2019, the date of issuance of the combined financial statements, for possible adjustments or disclosures in the combined financial statements. Through this date, Pension Fund did not identify any other matters that would require adjustment or disclosure in the combined financial statements.

Effective January 1, 2019, the HCBT plan was closed to new retiree enrollments.

NOTE H - INCOME TAXES

U.S. GAAP requires Pension Fund management to evaluate tax positions taken by Pension Fund and recognize a tax liability (or asset) if Pension Fund has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. Pension Fund has analyzed the tax positions taken by Pension Fund and has concluded that, as of December 31, 2018 and 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the combined financial statements. Pension Fund is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE I - NET ASSET VALUE (NAV) PER SHARE

Below is a summary of Pension Fund’s investments at December 31, 2018 and 2017, where fair value is estimated based on the NAV.

Commodities Partnership | 24,875,845 | - | N/A | N/A
Total | $916,392,610 | $172,557,074

*The fair values of the investments have been estimated using the NAV of the investment.

Private equity - Comprised of various limited partnerships and like investments that most commonly invest in strategies such as venture capital, leveraged buyouts, growth capital, distressed investments and mezzanine capital. These investments are generally considered illiquid and cannot be redeemed prior to distributions based on the liquidation of the underlying assets. The fund manager expects the underlying assets of the fund will be fully liquidated over the life of the partnership, typically 10 to 12 years.

Real estate - Comprised of various limited partnerships investments that most commonly invest in strategies involved in real estate ownership, development and financing. These investments are generally considered illiquid and cannot be redeemed prior to distributions based on the liquidation of the underlying assets. The fund manager expects the underlying assets of the fund will be fully liquidated over the life of the partnership, typically 10 to 12 years.

Natural resources - Comprised of limited partnerships investments that most commonly invest in strategies such as oil and gas energy, forest and timber, mining and sustainable energy. These investments are generally considered illiquid and cannot be redeemed prior to distributions based on the liquidation of the underlying assets. The fund manager expects the underlying assets of the fund will be fully liquidated over the life of the partnership, typically 10 to 12 years.

Commingled funds - Comprised of pooled investment vehicles which invest in a diversified portfolio of securities with specified geographic focus and/or market strategies. Liquidity and fair market value determination varies based on the characteristics of the specific investment vehicle.

Commodities funds - Comprised of commodity investments which offer diverse exposure to a wide range of global commodities markets and value-added strategies. This may involve exposure to commodity-linked derivative instruments that provide exposure to the investment returns of commodities without directly investing in physical commodities.

NOTE J - UNITIZATION

On January 1, 2014, Pension Fund instituted unitization. Unitization is an accounting process whereby each program fund retains a restricted reserve for the sole benefit of the members of that program.

The individual funds’ activity presented within the combined statements of changes in net assets available for benefits are now combined to reflect the fund balance, as well as the reserves. The following represent the individual line items in the combined statements of changes in net assets available for benefits that present the activity in the program reserves:
Net investment gain - All investment income is deposited into the reserves.

Program administration fees - All programs are charged an administration fee by the General Fund.

Interest expense - The interest is paid from the reserves into the fund balance of each program.

Fund to Fund transfer - The special apportionment and good experience credits are paid from the reserves into the fund balance.

Investment fees - All investment fees are charged to the reserves of each program. They are not included in the administration fee.

NOTE K - FINANCING ACTIVITIES

Line of Credit

The HCBT executed a line of credit agreement with Board of Church Extension of Disciples of Christ, Inc. (Church Extension) for $5,000,000 during 2016. The line bears interest at Church Extension’s rate effective at the time of advance of funds, but not less than 3.25%, nor more than 5.25%. The line is payable in full three years from the initial advancement date and is secured by a Guaranty Agreement. Pension Fund is the guarantor of the note for any remaining liability that exists at the time of the note coming due. The line of credit was closed out in September 2017.
Serving those who serve.

Pension Fund of the Christian Church (Disciples of Christ) provides pension and retirement savings accounts for clergy and lay employees of congregations, regions, general ministries and church-related colleges and seminaries of the Stone-Campbell (Restoration) Movement.

Pension Fund manages over $3 billion in net assets on behalf of more than 13,000 members in the United States, Canada, Puerto Rico, and related international ministries, so they can find the Road to Financial Wellness and live fully in retirement.
